The domain **www.theology-brewing-company.com** has been analyzed by Cookiebot to determine if it is compliant with EU regulations on the use of cookies and online tracking.

Your website is: **Compliant**

The following requirements in the General Data Protection Regulation (GDPR) and the ePrivacy Directive 2009/136/EC (ePR) have been tested:

-  Prior consent on other than strictly necessary cookies (ePR)
-  Prior consent on personal data (GDPR)
-  Personal data is transmitted to 'adequate countries' only (GDPR)

The attached scan report

In the attached scan report you can find detailed information about cookies and tracking technologies in use on your website. The result is based on a scan of 5 website pages. To perform a complete scan, [create a Cookiebot subscription](#) for your website.

The requirements to make your website GDPR/ePR compliant

In addition to fulfilling the tested requirements, Cookiebot can also help you:

- Inform your visitors in plain language about the purpose of your cookies and trackers before setting other than strictly necessary cookies (ePR)
- Provide options for the visitor to change or withdraw a consent (GDPR/ePR)
- Have a mechanism in place to log and prove consents (GDPR)
- Map and document data streams performed by third parties (GDPR)
- Configure your consent method to use explicit consent when processing sensitive personal data on your website (GDPR)
- Inform about the occurrence of automatic decisions, including profiling (GDPR)

You also need to do the following, for example by incorporating it in your website's Privacy Policy:

- Provide the identity and contact details of the data controller in your company (GDPR)
- Disclose that the visitor is entitled to access, correct, delete and limit processing of personal data (GDPR)
- Disclose that the visitor is entitled to receive personal data so that they can be used by another processor (GDPR)

- Disclose that the visitor has the right to lodge a complaint with a supervisory authority (GDPR)
- Please also check that log files in your web servers do not contain personal data such as the IP address

Please consult [the GDPR legal text](#) or a trusted source e.g. [the Data Protection Authority in your country](#) for a full overview of additional GDPR requirements and to help ensure your website meets those requirements not covered by the Cookiebot solution.

DISCLAIMER: The result is based on a scan of 5 website pages and is therefore not complete. To perform a complete scan, [create a Cookiebot subscription](#) for your website.
